ruim twee eeuwen geleden trok John Howard 1726-1790 door Groot-Brittannië en vele andere Europese landen om te kijken hoe mensen in gevangenissen en andere instellingen werden opgesloten. Zijn ervaringen leidden onder meer tot het befaamde *The State of the Prisons in England and Wales with Preliminary Observations and an Account of Some Foreign Prisons and Hospitals*. En inspireerden vele gevangenis-hervormers en wetenschappers over de hele wereld. De methode van Howard was eenvoudig: hij reisde in een ijltempo rond en klopte voor een bezoek aan bij de gevangenissen die op zijn weg lagen. Hij observeerde de situatie in de gevangenis, nam notities en vertrok naar een nieuwe gevangenis. En dit telkens opnieuw vele jaren aan een stuk met een bijna manische verbetenheid. Tom van der Beken inspireerde zich op John Howard voor zijn tocht door Europa. Anders dan Howard wil hij daarbij niet zozeer te weten komen hoe het er in gevangenissen in verschillende delen van Europa aan toegaat, maar wil hij inzicht krijgen in de rol en functies die gevangenissen vandaag vervullen. Dit boek vertelt over zijn bezoeken aan Engeland, Noorwegen, Frankrijk, Nederland, Italië en Azerbeidzjan en reflecteert over wat hij heeft gezien, gehoord en gelezen.

This book discusses the role of the prison in Europe across a divide of over 200 years inspired by the travels of the prison reformer John Howard 1726-1790 who visited prisons across Europe in the eighteenth century. It fundamentally reflects on centuries of the practice of locking people up as punishment. Howard travelled across Europe to visit prisons with a simple method: he travelled and knocked on prison doors on his journey and entered the premises. He then observed the situation in the prison, took notes and left to visit other locations. Howard's influential book *The State of the Prisons* resulted from his experiences, provoking debate among prison reformers and academics worldwide. Adopting the contemporary methods of prison tourism research, the author follows in Howard's footsteps. He draws on extensive research conducted in prisons across six countries: England, Norway, the Netherlands, France, Italy, and Azerbaijan. Howard's reflections are used as a frame to assess contemporary prisons, particularly revolving around the questions of what prisons are for today and what they should or should not be. It will be of great interest to criminologists researching prisons and penology as well as historians interested in the histories of punishment.

this volume explores the role that european institutions have come to play in regulating national prisons systems the authors introduce and contribute to advancing a new research agenda in international penology europe in prisons which complements the conventional comparative approach prisons in europe the chapters examine the impact if any that institutions such as the european committee for the prevention of torture and inhuman or degrading treatment or punishment and the european court of human rights have had on prison policy throughout europe with contributions from a wide range of countries such as albania austria belgium ireland norway and spain this edited collection offers a wide ranging and authoritative guide to the effects of european institutions on prison policy

though the prison is central to the penal system of most modern nations many believe that imprisonment did not become a major judicial sanction until the nineteenth century in this readable history pieter spierenburg traces the evolution of the prison during the early modern period and illustrates the important role it has played as both disciplinary institution and penal option from the late sixteenth century onward placing particular emphasis on the prisons of the netherlands germany and france the prison experience examines not only the long term nature of prisons and the historical conceptions of their prisoners but also looks at the daily lives of inmates supplementing our understanding of social change and day to day life in early modern europe

issues for 1889 1931 include the jaarverslag of the laboratorium voor pathologische anatomie en bacteriologie later the geneeskundig laboratorium

in recent years european prison law and policy have emerged as a force to be reckoned with this book explores its development and analyses the penological and human rights foundations on which it is based it examines the findings of the european committee for the prevention of torture the recommendations of the council of europe and the judgments of the european court of human rights from these sources it makes the general principles that underlie european prison law and policy explicit emphasising the principle of using imprisonment as a last resort and the recognition of prisoners rights the book then moves on to apply these principles to conditions of imprisonment regimes in prison contacts between prisoners and the outside world and the maintenance of good order in prisons the final chapter of the book considers

how european prison law and policy could best be advanced in future the authors argue that the european court of human rights should adopt a more proactive approach to ensuring that imprisonment is used only as a last resort and that a more radical interpretation of the existing provisions of the european convention on human rights will allow it to do so it concludes that the growing cooperation on prison matters within europe bodes well for the increased recognition of prisoners rights across europe in spite of some countervailing voices europe should increasingly be able to give an international lead in a human rights approach to prison law and policy in the same way it has done with the abolition of the death penalty

based on the lived experiences of incarcerated persons and staff this book explores the symbolic significance of prison foodways to normalization autonomy identity construction power group formation and security the book also traces the rationalization s that policy makers attach to prison food from the water and bread diet of the 18th century the contested abolition of alcohol consumption to the current fear surrounding the spread of covid 19 through food distribution in prisons the argument is developed that prison food policies have always reflected how belgian governments have treated imprisoned persons the emphasis on belgian prisons and the discussions on prison foodways situated on a micro and macro level add a unique flavour to prison food scholarship by providing a deeper understanding of a penal culture outside the dominant tradition of anglo saxon and nordic studies consequently the book provides a nuanced conception of prison foodways for penologists sociologists those with interests in wider prison policy and those working on the socio cultural role of food in closed environments
